Introduction

Education is not about passing exams; it is about preparing for life.

At Paramount, we go beyond traditional learning to unlock each child's potential through compassion, character, and creativity. We envision an education where students are not just filled with information but inspired with wisdom, purpose, and heart.

We believe that every child is born with the spark of greatness. At Paramount, we nurture that spark into a lifelong flame. From the first day of school to the final graduation applause, we walk beside each learner, guiding them with care and empowering them with courage.

Here, learning is joyful, meaningful, and transforming. This is not just a school; it is a sanctuary where children discover who they are meant to be.

Chairman's Message

MD. ANAMUL HAQUE SARKER

Founder & Chairman,

Paramount International School Dhaka. (Banani & Moghbazar)
Paramount Global Study & Paramount Education Group.

“শিক্ষা শুধু বইয়ের পাতায় সীমাবদ্ধ নয় এটি জীবন গড়ার হাতিয়ার।
আসুন, সঠিক শিক্ষায় আমাদের সন্তানদের গড়ে তুলি।”

“

As a lifelong Educator for educational reformation, I saw first-hand how the reliance on coaching centres, the pressure of grades, and the absence of ethical foundation eroded the joy of learning leads to an extra financial burden for the parents and mental stress for the students. With this realization, Paramount International School Dhaka was established in 2009 and pursuing excellence to transform the educational landscape in Bangladesh.

We set out not to replicate what exists, but to redefine what education should mean in the 21st century—relevant, respectful, and rooted in moral values, religious studies and discipline to be a good human being. Thus, Paramount is a movement toward a better tomorrow and we offer a great space where children grow with dignity, intellect, faith, and freedom.

Let us build a Bangladesh where education liberates, uplifts, and enlightens every child. Paramount is that bridge—from potential to purpose.

”
